

# Patient/doctor discussion guide

## If you're thinking about trying a CBD (cannabidiol) product, you probably have some questions for your doctor.

It's important to learn about CBD, and where it comes from, to get the safest and most effective results. Your doctor can be a good resource to help you learn more. Here are some questions to help you get the conversation going.

- 1** How is FDA-approved CBD different from CBD products sold in dispensaries, online, or in stores?

---

---

---

---

---
- 2** Does FDA-approved CBD result in a “high” like THC?

---

---

---

---

---
- 3** What kind of safety testing is required for a CBD product to be approved by the FDA? Are non-FDA approved products tested for safety?

---

---

---

---

---
- 4** Can FDA-approved CBD be added to my current medicines?

---

---

---

---

---
- 5** Which CBD products are typically covered by insurance?

---

---

---

---

---
